## Seizing That 1-1/2 Seconds of Opportunity...

According to national statistics, the average merchant has only 1-1/2 seconds to attract a passing customer into their business. Through attractive window displays of trendy or proprietary products that fit a business, you increase the odds that the passing customer will enter. Just as important is the presentation, or how the customer is able to view the display unobstructed, without clutter and distraction to detract from the merchandise.

A standard aluminum framed storefront system consists of vertical and horizontal extrusions that distract the eye from the merchandise on display. A storefront system using Patch Hardware has minimal distractions, and creates an almost frameless appearance. The result is customer concentration on the merchandise, not the surrounding glass support system.

Superior Glass offers a variety of Patch Hardware to make this state of the art glazing system available to the storefront industry.

Our commitment to our customers is to carry sufficient inventories of popular stock items, and short lead times for special orders. It is a total program that will allow your entry into the frameless storefront or 'all-glass' entrance market.

## Common Applications:

- Mall Fronts
- Retail Outlets
- Hotels
- Arenas and Museums
- Professional Office Buildings
- Restaurants and Clubs
